

Greece Travel Guide

Greece is one of the most popular holiday destinations in Europe.

Greece, the nation renowned for being 'the birthplace of Western Civilization', has numerous archeological and natural sites that attract travelers from all over the world. Since centuries the country has influenced the world's thoughts and practices; be it in science (through Archimedes, Pythagoras, and Euclid), philosophy (courtesy Socrates, Aristotle, and Plato), literature (Homer's *Iliad* and *Odyssey*), or even sports (Olympic Games).

Located on the Balkan Peninsula, the southern European country of Greece is surrounded on its three sides by seas – Ionian on the west, Aegean in the east, and the Mediterranean on the south. It shares its northern border with Bulgaria, Albania, Republic of Macedonia, and Turkey. Apart from the Greek mainland, there are a number of islands in the three seas under the Greece's dominion; significant ones include Crete, Cyclades, and the Ionian Islands. Owing to its proximity to the seas, Greece is blessed with pleasant weather for about seven months, between May and November. Most parts of the country experience the quintessential Mediterranean climate, with hot and dry summers, and wet and mild winters. Summer nights are although enjoyably cooler. The people of Greece speak the Greek language. Major holidays include Easter, Christmas, and the Independence Day on 25th March.

While traveling during the summer months it is advised to purchase all travel and transit tickets in advance. Greece receives a large number of tourists during this time and places get filled fast.

Driving around the mountainous terrain of the country can be a challenge, especially for new drivers, as there are frequent reports of road accidents. It is, therefore, a good idea to hire a driver than drive by yourself, especially if this is your first time in Greece.

There are a large variety of wines available in Greece, many of which may be of mediocre quality. It is best to do some research before trying them.

While visiting churches, women should have their shoulders covered and both men and women should wear pants that cover the knee.

Prices of accommodation, food, traveling, and sightseeing mainly depend on the popularity of the destination and time of the year (summer, New Year, Easter, etc.). For instance, Mykonos is considered as one of the most expensive tourist places in Greece. If you are traveling on a budget, it is best to avoid such places and opt for the places less traveled.
